Where You Are and What It Means

Current Platform Snapshot

PLATFORM	HANDLE	FOLLOWERS	STATUS	PRIORITY
TikTok	@sentaaquicomoleo	57.6K	Active - main engine	CRITICAL
Instagram	@senta.aqui.com.o.leo	~1.5K	Growing since Jan 2026	HIGH

The Real Problem

You have a video with 1.2M views and another with 852 views on the same account, same niche, same production quality. That is not a volume problem. That is a repeatability problem. You do not yet have a documented formula for why your best content works. Until you solve that, posting more is just running a lottery.

What the Data Actually Says About Your Market

- 12 million Brazilians are chemically dependent (OMS data). That is your core audience walking around right now with nowhere to turn in PT-BR.
- 32 million Brazilians have already bet online (Datafolha 2024). The gambling addiction epidemic is massive, completely underserved in recovery content, and directly in your lane.
- Brazilians spent R\$30 billion per month in bets in Q1 2025 (Banco Central). The withdrawal crisis from bets is your fastest-growing content opportunity right now.
- You are currently at 57.6K on TikTok with zero competition in your exact positioning: certified counselor + lived experience + PT-BR crack/cocaine focus.

WHAT NEEDS TO CHANGE — NO SUGARCOATING

No repeatable viral formula identified yet. Performance varies wildly.

Posting frequency is below threshold for a 57K account. Minimum is 1 per day on TikTok.

Instagram is structurally unbuilt. You are losing everyone over 30 completely.

No consistent CTA in most videos. Viewers are not being directed to Hotmart or bookings.

YouTube is empty. You are missing the long-term SEO moat that lasts for years.

The Brazilian Landscape in 2026

Your Direct Competitors — Researched March 2026

CREATOR	PLATFORM REACH	FOCUS	THEIR WEAKNESS	YOUR EDGE
Dr. Vitor Blazius @drvitorblazius @amorcontraalcoolismo	358K Instagram TikTok: active	Alcoholism only Targets families	Zero crack/cocaine content. Clinical cold tone. No personal recovery story.	You cover hard drugs. You lived it. Families + users both.
Psicólogo Leonardo Teixeira @leonardofteixeira	13.3K YouTube (460 vids) 11K Instagram	Chemical dependency + betting addiction	No TikTok presence. No personal story. Academic framing.	TikTok dominance. Authenticity. Shorter window of advantage.
Ficar Limpo @ficarlimpo	341K Instagram ZERO TikTok	General recovery Institutional tone	No TikTok. No human face. No personal journey.	TikTok. Your face. Your story. Your credibility.
ABEAD @abead_oficial	42K Instagram	Institutional association	No video content. No emotional hook. Not a person.	Everything. You are human.
Leonardo Teixeira (psicologoleonardoteixeira.com.br)	13.3K YouTube Hotmart course	Addiction + bets Online course	No personal recovery. No TikTok. Needs 10 payments of R\$69.00.	Faster content. Lower ticket barrier. Real credibility.

7 Market Gaps Nobody Is Filling Right Now

1. Men in recovery PT-BR with a real personal story and credentials. Nobody.
2. TikTok PT-BR chemical recovery. Ficar Limpo has 341K Instagram and ZERO TikTok. That slot is open.
3. Crack and cocaine content beyond alcohol. Nine of the top recovery creators globally only cover alcohol.
4. Family of the dependent at scale with a personal voice. Massive audience, almost zero content.
5. Clinical credential + raw storytelling hybrid. Globally rare. In PT-BR, nonexistent.
6. Betting addiction recovery content. R\$30B/month market with CPI investigation and zero recovery guides.
7. Faith-based recovery representation on social media. Underserved in Brazil's deeply religious culture.

Your Irreplicable Competitive Advantage

You LIVED chemical dependency and came back. You are certified. You are in PT-BR. No clinic, no academic psychologist who never used drugs, no institutional account can buy this credential. It is yours and nobody can copy it. Ficar Limpo does not have this. The English-language creators will never cover crack and cocaine in Portuguese. Your positioning window is 12-18 months before the space fills. After that, first-mover advantage protects you if you move now.

What You Can Actually Achieve by December 2026

The numbers below are based on organic growth benchmarks for niche PT-BR health creators in 2025-2026, not on wishful thinking. They assume you post consistently and the AI system runs.

PLATFORM	START (APR 2026)	REALISTIC END 2026	CONDITION
TikTok	57.6K	150K - 250K	1 post/day + repeatable formula identified
Instagram	~1.5K	20K - 40K	Weekly carousels + native Reels + Stories daily
YouTube	Nascent	2K - 5K subs	1 long-form/month + 3 Shorts/week minimum
Revenue	~R\$2K/mo	R\$10K+/month	Diversified streams activated per roadmap
Email List	0	1K+ contacts	Lead magnet live + consistent Hotmart CTAs

Product Goals by End of 2026

- Recovery Guide 2.0 on Hotmart: updated, redesigned, higher price point (R\$197-297).
- First group mentorship cohort closed and delivered: 8 people, 4 weeks, R\$600-800/person.
- Betting addiction mini-course live on Hotmart or Kiwify (R\$97-197). Biggest underserved gap.
- Family support product: separate offer targeting parents and partners (R\$97-197/month).
- Email list of minimum 500 qualified leads from lead magnet.
- 2-3 active Brazilian partnerships: podcasts, psychologists, mental health creators.
- At least 1 active clinic referral arrangement: R\$1.000-3.000 per converted referral.
- TikTok Creator Rewards Program activated (requires 10K followers - already eligible).

TikTok, Instagram, and YouTube — Each Differently

TikTok — @sentaaquicomoleo

Role: Discovery engine. Your door for new followers. TikTok does not favor popularity. A new account has the same distribution chances as a 500K account. The algorithm tests your video with a small audience first. If retention is above 80%, it expands.

ELEMENT	RULE
Posting frequency	1 post/day minimum. Tuesday-Saturday at 20h.
Video length	60 seconds minimum to qualify for Creator Rewards Program (\$0.40-\$1/1K views).
Hook	Start mid-sentence. Viewer must feel they entered a conversation already in progress.
First 3 seconds	Strong facial expression or confrontational statement. No intro, no logo.
Captions	2-3 search keywords your audience types. TikTok is now a search engine.
Editing	Cut every 2-3 seconds. Static long shots kill retention.
CTAs	Every single video directs to bio link. No exceptions.
Comments	Reply to every comment in first 24h. Video-reply comments are new content.
Creator Rewards	You are eligible now (57K followers > 10K minimum). Apply immediately.

Instagram — @senta.aqui.com.o.leo

Role: Conversion engine. Where TikTok followers come to verify you are credible. Reels reach non-followers (avg 30.81% reach rate). Carousels reach existing followers (avg 14.45%). You need both.

FORMAT	FREQUENCY	WHAT IT DOES
Reels (repurposed from TikTok)	4-5/week	Reaches new people. Top of funnel.
Carousels (7-10 slides)	1/week	Saves and shares. Best for families.
Stories	Daily	Keeps existing followers engaged. DM driver.
Lives	1/week	Community building. Converts followers to clients.

Instagram DMs are the primary engine for booking R\$200-400 sessions and selling high-ticket services. Every post should create a reason to DM you. Ask questions in every caption.

YouTube — @sentaaquicomoleo

Role: Long-term authority. SEO moat. A video you post today can rank in searches for 3 years. YouTube AdSense for the health/wellness niche in Brazil yields approximately \$2-4 USD per 1,000 views. That is passive income that compounds.

FORMAT	FREQUENCY	DETAILS
Shorts (repurposed)	3/week	Wed, Fri, Sun. Loop-optimized clips from your 2-min footage.
Long-form (8-15 min)	1/month	YouTube Partner threshold: 500 subs + 3K watch hours.
Titles	Always	Max 50 characters. Write as a search query. 'Voce e dependente sem saber.'
Description	Always	2-3 sentences with main keywords. This is how YouTube indexes.

Your 5 Pillars and Weekly Operation

The 5 Content Pillars

You have 92 scripts. Organize them into these 5 pillars this week. Accounts without a defined pillar are categorized as generic and receive less distribution. The algorithm needs to know what your account is.

PILLAR	CONTENT TYPE	WHY IT WORKS	EXAMPLE TOPICS
01 — EU PASSEI POR ISSO	Personal story Vulnerability Lived experience	Nobody can copy this. Highest viral rate. Emotional resonance.	A noite que decidi mudar O que perdi para o crack O que minha familia sentiu
02 — VOCE E DEPENDENTE	Identification content Signs and symptoms Denial patterns	High search volume. People in denial find this. High saves.	5 sinais que voce e dependente Diferenca entre uso e vicio O que e tolerancia
03 — A FAMILIA DO DEPENDENTE	For parents, partners Siblings Denial Dependent behavior	Massive audience. High purchasing power. Almost zero PT-BR content.	Como falar com filho viciado O que e codependencia Como colocar limites
04 — A CIENCIA POR TRAS	Neuroscience Dopamine Brain chemistry	Your clinical credential. Unique in PT-BR. Builds authority.	O que cocaina faz ao cerebro Por que abstinencia doi O que e síndrome de abstinencia
05 — RECAIDA E RECUPERACAO	For people trying to stop Relapse patterns What actually works	Converts to clients. Deep emotional hook. Action-oriented audience.	Primeiras 24h limpo Como lidar com fissura Recaida nao e fracasso

BONUS PILLAR — APOSTAS (Betting Addiction)

This is the fastest-growing uncovered market in your niche. R\$30 billion per month spent on bets in Brazil. CPI das Bets in the Senate. 32 million Brazilians have bet online. Studies link gambling to 15% suicide attempt rates. Nobody in PT-BR is covering this from a recovery perspective. You cover chemical dependency AND behavioral addictions. You speak the language of the street. Start 1 betting addiction video per week immediately.

Weekly Production Workflow — 3 Hours Total

DAY	TIME	WHAT YOU DO
Sunday	15 min	Read automated weekly report. Check which pillar performed best. Confirm filming slots.
Monday	30 min	Run Scout report in Perplexity. Feed to Claude Creative Director. Approve 2 scripts.
Tuesday	75 min	Film session 1: 45 min recording. Upload to Drive. OpusClip processes. CapCut polish (8 min/clip). Schedule
Wednesday	0 min	Clinic day. SocialBee posts automatically. Algorithms work for you.

Thursday	75 min	Film session 2: 45 min. Same process. Next week content ready.
Friday	0 min	Free. Reply to important comments in 2 minutes.
Saturday	0 min	Free. Record ideas in Notion for next cycle.

The 3 Non-Negotiable Rules

- You film every Tuesday and Thursday. These are patient appointments. Nothing moves them.
- You never spend more than 8 minutes on CapCut per clip. If it needs more, OpusClip failed. Reprocess.
- You check metrics once per week, 15 minutes, looking at one signal: which pillar performed best. That pillar gets an extra clip next week.

Your System: What Each Tool Does

TOOL	COST/MO	FUNCTION	PRIORITY
Claude Pro	\$20	Creative Director: scripts, strategy, carousels	CRITICAL
Perplexity Pro	\$20	Scout Agent: competitor monitoring, trends	CRITICAL
Make.com Core	\$9	Automation backbone connecting all tools	HIGH
OpusClip Pro	\$19	1 video in, 4-5 optimized clips out in 20 min	HIGH
SocialBee	\$29	Scheduling + evergreen content recycling	HIGH
CapCut Pro	Have	Final polish. Max 8 min per clip.	CRITICAL
Descript	\$12	Remove filler words. Clean audio.	MEDIUM
Notion Free	\$0	Strategic Manager: metrics, financial tracking	MEDIUM
VidIQ Free	\$0	YouTube keyword research and title optimization	MEDIUM

Total cost: approximately \$109/month = R\$650. One additional counseling session pays for the entire system every month.

How You Hit R\$10.000 Per Month

The most important rule: you do not wait for 100K followers to start making money. You start now with what you have. The architecture below sequences each revenue stream by what you can activate immediately versus what requires audience growth.

Revenue Stream by Activation Timeline

STREAM	START WHEN	MONTHLY EST.	HOW
Counseling Sessions	Now	R\$1.600 - 3.200	8-16 sessions @ R\$200-400. Link in bio + CTA every video.
Hotmart Guide Sales	Now	R\$600 - 1.500	Dedicated 3-video campaign monthly. Retarget with Stories.
TikTok Creator Rewards	Now - Apply	R\$300 - 800	Already eligible: 57K > 10K. Videos 1 min+ mandatory.
Betting Addiction Guide	Month 2	R\$500 - 1.500	New e-book targeting gambling addiction epidemic. R\$97-197
Lead Magnet + Email	Month 2	Funnel builder	Free PDF '5 Sinais'. Collect emails via Hotmart/Kiwify.

Family Support Product	Month 4	R\$1.000 - 2.500	E-book + community R\$97-197/month for families.
YouTube AdSense	Month 6+	R\$500 - 1.500	500 subs + 3K hours. Health niche CPM: \$2-4 USD/1K views
Clinic Referrals (SP)	Month 6	R\$1.000 - 3.000	2-3 clinic partnerships. R\$1-3K per converted referral.
Brand Deals	Month 8	R\$1.500 - 5.000	Mental health apps (Zenklub, Vittude), non-alcoholic brands.
Group Coaching Full Course	Month 9	R\$3.000 - 6.000	R\$997-1.997 full course. Launch to email list.

Realistic Monthly Income Projection

PERIOD	LOW ESTIMATE	HIGH ESTIMATE	PRIMARY SOURCES
Month 1-3	R\$2.500	R\$4.000	Sessions + Hotmart + TikTok Rewards
Month 4-6	R\$5.000	R\$8.000	+ First mentorship group + Bets guide + Email funnel
Month 7-9	R\$7.000	R\$12.000	+ YouTube Partner + First brand deal + Clinic referrals
Month 10-12	R\$10.000	R\$18.000+	+ Full course + Second mentorship cycle + Multiple brands

IMPORTANT CAVEAT

These projections assume consistent posting (Tuesday-Thursday minimum), the AI system running as designed, and you activating each revenue stream on schedule. They are not guarantees. They are what the data suggests is achievable for a credentialed niche creator in Brazil building across three platforms simultaneously. The single biggest risk to this plan is inconsistent filming.

Tiered Service Pricing Structure

SERVICE	PRICE	LAUNCH TIMING
Single Session (current)	R\$200-400	Active now
Monthly Package (4 sessions + WhatsApp)	R\$800-1.200	Immediate
Group Mentorship (4 weeks, 8 people)	R\$600/person	Month 4 (8K+ IG followers)
Family Counseling Session	R\$300-500	Immediate
Strategic Intervention	R\$1.500-3.000	Month 6 (authority established)

THE BOTTOM LINE

The window to dominate PT-BR chemical dependency content on TikTok is open right now. @ficarlimpo has 341K Instagram and zero TikTok. Nobody in PT-BR combines certification with lived recovery and crack/cocaine specificity. The betting addiction space is exploding with no recovery voice. You have 92 scripts ready to film. The AI system is designed. The only input that cannot be automated is you pointing a camera at your face twice a week and telling the truth about addiction. That is already what you do. Everything else is execution.

The single version of this plan that fails: the one you film inconsistently.
